BODY WISE PROTEIN+

The Ultimate *Protein Formula*

28 SERVINGS • SMOOTH VANILLA

Advanced Muscle Nutrition for Strength, Recovery, Performance and Healthy Aging.

Build & Maintain Muscle | Fast Recovery | Cellular Energy | Joint Support | Healthy Aging

Why take *Body Wise Protein+*

- Gives your muscles the protein, key amino acids and advanced nutrients to build, repair and protect muscle.
- Supports higher energy, better performance and faster recovery.
- Helps you stay strong, active and lean as you age.

The Science-Backed *Ingredients & Key Benefits*

100% Whey Protein Isolate
Complete Protein

22 g

COMPLETE, HIGH-QUALITY PROTEIN

- Provides all **9 essential amino acids** your body can't make.
- Highly digestible, fast absorbing and low in fat and lactose.
- Helps build, repair and maintain lean muscle.

HMBPro™
BioSNEDS™ HMB

1 g | BioSNEDS™

ADVANCED MUSCLE PROTECTION & RECOVERY

- A clinically studied form of HMB that helps reduce muscle breakdown.
- Supports lean muscle, strength and faster recovery from training.
- Uses BioNEDS® technology for up to 22x greater bioavailability than standard HMB.

Urolithin A
Healthy Aging

500 mg

CELLULAR ENERGY, MUSCLE HEALTH & LONGEVITY

- Supports healthy mitochondria - the "powerhouses" of your cells.
- Helps your body clear out older, less efficient mitochondria so new, healthier ones can thrive.
- Promotes better energy, endurance and muscle function as you age.

L-Leucine
Added to Whey Protein

Total 3+ g

THE KEY AMINO ACID FOR MUSCLE BUILDING

- Over 3 grams of leucine (includes 800 mg added) for a powerful dose.
- Helps activate muscle protein synthesis, the process that builds and maintains lean muscle.

DAILY SUPPORT / PER SCOOP

Complete protein, elevated: Leucine naturally present in whey is complemented by added leucine. The formula also includes minerals, vitamin D and digestive enzymes.

Vitamin D	25 mcg	Calcium	120 mg
Magnesium	100 mg	Phosphorus	30 mg

NUTRITION + ELECTROLYRTES / PER SCOOP

130	Calories	22 g	Protein	1 g	fat

Carbohydrates	8 g	Sodium	150 mg
Chloride	230 mg	Potassium	100 mg

COMPLETE AMINO ACID PROFILE

18	Amino Acids	9	EAAs	3	BCAAs

Complete muscle nutrition featuring all nine essential amino acids, including the three powerful BCAAs — Leucine, Isoleucine and Valine — to support muscle protein synthesis, recovery and maintenance.

BCAA SPOTLIGHT

Leucine: Supports muscle protein synthesis signaling.
Isoleucine: Participates in muscle metabolism and energy utilization.
Valine: Supports normal muscle metabolism and tissue maintenance.

DAILY SUPPORT

Electrolytes & Minerals
Hydration, Performance & Muscle Function

Digestive Enzymes
Better Protein Absorption & Less Bloating

Vitamin D
Muscle, Bone & Immune Support
